

Dear Parishioners:

This past weekend I mentioned in my homily about the issue of the prevalence of pornography in our society. So many people have been struggling with this addiction in their lives. The church has a wonderful program to offer on the internet to help people who struggle with this addiction. It is called “**Reclaim God’s Plan for Sexual Health.**” In an effort to give people a realistic program to address this issue, a group in Wisconsin called Elizabeth Ministry has developed a program to help Catholics (men, women and youth) to overcome this problem. It **uses the brain science of behavior in the light of faith** to overcome pornography and other unhealthy sexual behaviors with this scientific, Catholic program.

Elizabeth Ministry International has partnered with Candeo (a tested and proven process which has helped thousands of struggling individuals in more than 80 countries worldwide) to “Reclaim their Sexual Health” in a Catholic setting. It is an on-line program which has a cost associated with it, but I believe the success of the program is well worth the expense. It is safe and anonymous, based in brain science, affordable, accessible 24/7, provides tracking and accountability, offers coaching and support as well as spiritual resources. If you’d like more information, please go to their website at: www.ReclaimSexualHealth.com to discover what might be available for you.

Yours in Christ,

Fr. K. Scott Connolly
Pastor
